Meeting Objectives

By the end of the meeting,

- 1) Taskforce members will understand the fee-for-service and value-based care models and the risks and opportunities related to the transition in payment models (a shift from a focus on volume to a focus on outcomes).
- 2) Taskforce members will understand the barriers surrounding reimbursement for health services that address social determinants of health and the approach the SC Health Company is taking to develop a workforce that can address social determinants.
- 3) Taskforce members will learn about innovative health system and employer programs that are transitioning towards value-based care and oriented towards population health improvement and the workforce that is utilized to provide preventive services and services that address social/environmental factors.
- 4) Groups 1, 2 and 3 will have productive discussions during breakout sessions and begin drafting recommendations for consideration by the taskforce.
