Meeting Objectives

By the end of the meeting,

1) Taskforce members will have a common definition of aging in place and understand the demographic imperative to enhance South Carolina's Long-Term Services and Supports and to adequately help citizens to age in place and remain independent for as long as possible.

2) Taskforce members will learn about innovations needed within the health care workforce to provide optimal home and community-based care to people as they age in place.

3) Taskforce members will learn about the need for technology innovation, the evolving idea of smart homes and how technology can support people to age in place.

4) Groups 1, 2 and 3 will have productive discussions during breakout sessions and continue to work on drafting recommendations.
