Taskforce Guiding Principles

Consensus: Even though the decision may not be the first choice, everyone can live with and support the decision.

Consensus does not mean unanimous agreement.

Inclusivity: Effective collaboration requires transparency and inclusiveness, equality among all participants and active participation from all partners.

Impact: Effective collaboration requires acknowledging capacity and scaling interventions to realistic goals.

Strategic Alignment: Effective collaboration requires all participants to disclose when our own interests are in conflict with those of the task force.

Respect: Effective collaboration requires mutual trust and respect for organizational boundaries, continuity in communication and interaction and a distinction between policy analysis and political commentary.
