Agenda item: Recommendation Workshopping

Presenter: Karina Howell

Discussion:

What makes a good recommendation?

The recommendation workshopping form will be sent to taskforce members as a Survey Monkey after the meeting

Timing: Taskforce members make recommendations from November to February

Taskforce members aid in revising and finalizing recommendations in March and April

Agenda item: Breakout Sessions

Facilitators: Steering Committee Members

Discussion:

Breakout rooms used 30 minute to answer three questions:

Based on the presentation by Dr. Holt-Lunstad: what's your biggest takeaway?

Dr. Holt-Lunstad introduces the concept of "Health in All Policy" from the WHO and suggests that policies should consider the social ramifications across sectors of health, transportation, housing, employment, nutrition, water and sanitation. Why is it important for social isolation to become a part of the discussion with developing or updating policies that impact older adults in South Carolina and how will you explain this to others?

To make an impact on social isolation in older adults in South Carolina, what would be your priority?

Meeting attendees met as a large group after small group sessions to discuss takeaways and discussion from the small group sessions
